流金岁月, 我们相伴成长

■本刊编辑部

时光荏苒,春去冬来,再迎春,2012年的时光已一步步走到了尾声。辞旧迎新,我们回望过去,这一年收获到什么又失去了什么,明白了什么又迷惘于什么。不过,只要是前进的步伐不止,发展的道路正确,那就是进步,就是成长,就是让时光幻化成了流金岁月……

2012年,《三联通讯》作为三联集团的对外宣传窗口和对内的交流平台,见证了集团的稳步发展和取得的可喜成绩,同时,我们也透过这个窗口聆听到了更多员工们内心的声音,分享他们在工作上的酸甜苦辣,心路历程。

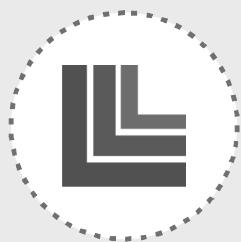

我们欣喜于有这样一个大本营,在这,我们可以扎实地感受到企业的生机与活力,发展与希望;也是在这里,我们用文字交流,分享自己的心得,提供宝贵的职场知识,道出人生的感悟和所得。在这里,我们不仅看到自身的发展,公司的成绩,更是可以了解与外界的联系,在社会上的定位。流金岁月中,它是我们的朋友,也是我们的瞭望点。

相较于未来公司的发展,今天的《三联通讯》还很年轻,还需要成长,它愿与我们的公司相伴共发展,也愿与公司的员工朋友们相伴共进步,它更愿在之后的时间里得到更多的关注与支持。

龙年已去,蛇年到来。《三联通讯》犹如一艘大船在流金岁月的大河里行驶着,这一站不是终点,新的征程即将扬帆起航……

安徽省启动“光彩事业石台行”活动

——省领导沈素琰、李卫华等领导及中国民间商会副会长金会庆等参加

2012年12月11日,省委统战部、省光彩事业促进会在石台主办《安徽省“光彩事业石台行”活动》。省委常委、省委统战部部长、省光彩事业促进会会长沈素琰出席并讲话,省政协副主席、省工商联主席李卫华、池州市委书记陈强等领导及中国民间商会副会长、安徽三联集团总裁金会庆等参加会议。

沈素琰指出,“光彩事业石台行”活动是全省统战系统深入贯彻落实党的十八大精神和全省扶贫开发工作会议精神的切实举措,旨在推进石台县扶贫开发工作和美好乡村建设。希望广大民营企业家在扶贫开发中促进当地发展,在投资创业中拓展发展空间,在感恩回报中履行社会责任;要以此次

活动为契机,找准企业自愿、地方鼓励、群众需要的好项目,实现自身规模扩张,产业链条延长,推进企业自身的科学发展和转型升级。

省直有关单位负责人、企业家,以及池州市、石台县和帮扶乡镇的负责同志等170余人参加会议。活动举行了项目签约和捐赠仪式,协议项目和捐款、捐物总金额共计8.26亿元。

三联教育集团总裁余皖生与石台县职教中心校长徐启祥在活动仪式上签署“三联教育集团与石台县职教中心职业教育合作框架协议”。

安徽省委统战部工商经济处及石台县领导考察三联集团

2012年10月31日,省委统战部工商经济处韩永龙副处长、石台县副县长施道良及石台县发改委、招商局、扶贫办等领导先后参观了三联学院一校区及二校区,随后在二校区一楼会议室召开交流会议。三联集团及有关单位领导余皖生、朱熔、李杰菊、王瑞友、陈建抗等出席。

韩永龙副处长首先介绍了双方主要领导,希望石台县与三联集团加强交流与合作。

石台县副县长施道良向与会人员详细介绍了石台县的情况。施县长说,石台县是一个生态县,是国家重点生态功能区、国家生态经济示范区,同时也享有“安徽省休闲农业与乡村旅游示范县”等称号。石台县的发展主要是依靠绿色产业。由于其特有的山水自然风光,丰富的绿色资源,政府希望通过招商引资,发展生态旅游、开发石台县特有的无污染农副产品、富硒山泉水和土壤,以此来带动整个绿色产业链,从而

进一步推动石台县经济发展、提高居民生活水平以及社会事业又好又快的发展。

受三联集团总裁金会庆委托,三联集团副总裁余皖生代表三联集团,对省委统战部及石台县领导莅临三联考察指导表示热烈欢迎,并围绕“产、学、研”三个方面向与会人员介绍了三联集团的发展概况,重点介绍了三联在旅游、护理等人才培养方面

的优势及汽修、养生等职业培训方面的特点。

随后,双方在旅游、养老等产业及人才培养、职业教育等方面进行了交流与探讨,表示将结合石台县的发展需求及三联的人才、技术、资金优势,继续开展深入交流,以期实现合作与共赢。

安徽省2012年度科技攻关计划项目“实际道路驾驶技能(科目三)智能考试系统”获准立项

近日,从安徽省科技厅获悉,三联申报的“实际道路考试技能(科目三)智能考试系统”被列为2012

年度省科技攻关计划项目,获准立项。

实际道路考试技能(科目三)智能考试系统是

集计算机技术、自动控制、卫星定位、数字化通信等技术于一体的综合性智能化考试设备。主要研究开发实际道路驾驶考试中上车准备、起步、直线行驶、变更车道、通过路口、通过人行横道线、学校区域、通过公共汽车站、会车、超车、靠边停车、掉头、夜间行驶等 13 个基本考试项目的评判技术,并实现 GPS 差分卫星定位,及考车速度、发动机转速、车灯状态、档位状态、车门状态检测、安全带状态、手刹状

态、制动踏板等准确检测。

本系统为提高驾驶人安全素质,预防交通事故发挥积极作用,并针对公安部最新颁发的 123 号令规定的驾驶人考试要求开展研究,为驾驶人实际道路考试提供新的技术支撑,进一步保证驾驶人考试的公平公正。

安徽三联学院第一届校地企协作论坛圆满落幕

为进一步加强校地企合作共赢,推进协同创新,深入探索校地企联合培养人才工作模式,提升高校的人才培养服务地方经济建设和社会发展的实效,12月12日,安徽三联学院第一届校地企协作论坛隆重召开。省教育厅、省大中专毕业生就业指导中心、合肥市经开区人事劳动局等单位领导、合肥美菱股份有限公司等八家企业嘉宾和我院9个系(院)的常务主任和负责就业工作的相关人员共40余人出席会议。院长助理姜发根主持论坛。

本届论坛主题为“加强合作、共促发展、互利共赢、服务地方”。常务副院长易佑民教授首先致辞,从多方面论述了此次论坛召开的意义,易院长强调,此次论坛旨在探讨校地企合作方面的经验,提高服务地方经济建设的能力,进一步促进校地企协作的广度与深度,共同提高应用型人才培养的质量。就业实训处副处长王士琅介绍了我院“升本”以来校企合作的基本情况和“十二五”规划。

随后,合肥市经开区人事劳动局副局长徐祥忠、合肥美菱股份有限公司人力资源部部长张小林、合肥联宝科技公司人事总监周迁、安徽风之星投资控股有限责任公司人事经理葛学亮及合肥广播电视台财经频道艺术总监陈涛等代表分别做了交流发言。他们对此次校地企合作论坛的召开表示

欢迎和支持,并对我院近几年在毕业生工作中所取得的成绩表示肯定。同时,他们互相交流了合作的成功经验,并为联合培养应用型人才提出了下阶段的设想。

省人力资源和社会保障厅就业促进处处长刘晓燕及省大中专毕业生就业指导中心副主任闫明圣分别做重要讲话。他们指出,此次论坛意义重大,将进一步提升毕业生就业质量,提高企业的创新能力。他们要求,校地企三方要成为战略伙伴,坚持四个合一:车间和教室的合一、教师和师傅的合一、学生和徒弟的合一、理论和实践的合一,在专业与课程、实践教学基地、双师型团队、科研开发、员工培训、就业安置等方面开展深层次的合作。同时,他们希望各方好好总结,提炼出一整套成功的经验和做法,在全省高校中推广,实现校地企多赢,为培养应用型人才、为安徽的转型发展、为建设美好安徽贡献力量。

最后,合肥市经开区人社局、安徽风之星投资控股有限责任公司、合肥广播电视台负责人先后与学院代表签署合作协议并举行了揭牌仪式,本届论坛在热烈掌声中圆满落幕。

安徽三联学院召开第二届科研工作会议

11月26日下午,学院第二届科研工作会议在B01报告厅举行。院领导桂宁东、易佑民、秦永元、赵延铸、张树林、张克仁、王瑞友出席会议并就座主席台。学院各系(部)、处(室)领导,学院各专业学科带头人、专业负责人及学科带头人培养对象参加了会议。会议由院长助理姜发根主持。

常务副院长易佑民教授作重要报告,报告主题为《提高认识 创新机制 稳步推进学院科研工作》。报告全面回顾了学院科研工作所取得的成果,深刻分析了当前科研工作面临的挑战,为学院今后的科研发展明确了思路,指明了方向。

易佑民指出,要统一思想,转变观念,充分认识到加强科研工作的必要性与紧迫性。高校科研是实现高校科学研究职能的需要,是实现学院可持续发展的需要,是实现应用型人才培养的需要,是提高师资队伍培训的需要。当前,学院在科研工作快速发展的过程中存在一些突出问题,需要我们广大教职员提高认识,积极主动地参与到科研工作中去。

易佑民强调,当前和今后一段时间我院科研工

作需要重点做好以下几个方面:转变思想观念,加强科研工作认识;依托优势专业,凝练学术方向;建设学术团队,聚集科研队伍;构建科研平台,增加学术交流渠道;加强产学研合作,推进成果转化进程;创新评价机制,营造良好环境,抓住机遇,为学院科研工作谋求更快、更好地发展,打造应用型本科的一流品牌。

会上,张克仁副院长宣读了《关于表彰2009-2011年度科研工作“先进集体”和“先进个人”的决定》。随后分别为获奖的先进个人及先进集体代表颁发荣誉证书。此次会议共表彰先进个人6名,先进集体4个。

交通工程学院王慧老师作为获奖代表,与大家交流了科研工作的经验;科研处副处长王根杰为大家介绍了有关职称评审中对科研成果要求的相关内容。

根据会议要求,各单位将组织教职员工围绕会议议题展开深入讨论。

徽商奥斯卡高校巡讲走进安徽三联学院

分享创业故事,指导职业规划,与徽商领袖面对面。11月23日下午,“口子窖”杯第二届徽商奥斯卡年度盛典系列活动之徽商高校巡讲活动的第二场在我院二校区学术报告厅举行。第二届徽商奥斯卡年度盛典十大徽商领袖候选人吴铜国、周典静与三联学子一起分享了徽商文化和自己的创富故事。学院常务副院长易佑民教授,院长助理姜发根,工商管理系常务主任谢艳平,徽商杂志社运营总监许以信等出席巡讲会。

易佑民教授首先发表致辞。他指出,本次巡讲对我院来说是一次难得的学习机会,也是一次难得的合作机遇,希望通过此次活动,能够为学院与新时代徽商企业之间搭起新的合作桥梁。

徽商杂志社运营总监许以信先生向我院赠送《徽商》杂志和最新出炉的《徽商丛书》。

“徽商精神是什么?作为一名徽商,要具备哪些品格?如何做到青春无悔?”本场巡讲的两位企业家——安徽瑞煌光电科技有限公司董事长吴铜国,2012十大徽商名媛候选人、贝乐教育集团董事长周典静为三联学子——道来。

吴铜国董事长与大家分享了他的创业历程,介绍了LED行业的发展情况。在演讲中,他多次提到,因为自己的坚持,才赢得了发展机会,赢得了现在LED行业的牢固地位。贝乐教育集团董事长周典静女士则与大家分享了自己对青春和爱情的理解。

精彩的创业故事、或激昂或深情的表达深深感染了现场观众,赢得了阵阵掌声。

演讲结束后,徽商杂志社总监许以信先生对本次巡讲进行了总结。随后,现场观众与两位企业家进行了互动交流,现场氛围轻松欢快。

徽商高校巡讲是第二届徽商奥斯卡年度盛典系列活动之一,旨在为徽商榜样和大学生提供与企业家面对面交流商道的机会,以指点职业规划、提供创业咨询等,是扩大徽商文化影响、分享创业理念精神的重要载体。据悉,本届徽商高校巡讲活动的首站为安徽大学,我院巡讲活动结束后,巡讲活动还将在中国科技大学、合肥工业大学、安徽财贸职业学院等高校举行。届时,数十名徽商榜样将继续走进校园,与大学生分享徽商文化和创富故事。

安徽三联学院在省第二届就业课程教学 大赛中喜获佳绩

11月11日,安徽省第二届高校就业指导课程教学决赛暨颁奖典礼在安徽行政管理学院学术报告厅隆重举行。安徽三联学院荣获“最佳组织奖”,经济法政系郭玉芳获三等奖,日语系胡宝琴、护理系周文琴获优秀奖。

大赛由安徽省教育厅主办,安徽省教育厅高校学生处、大中专毕业生就业指导中心、安徽省职教教学会产教合作委员会联合承办,合肥工业大学出版社、安徽大学出版社协办。

近年来,我院在保持较高就业率和就业质量的同时,积极探索就业指导新途径,把就业指导纳入学生入学到毕业、就业的整个过程,形成了具有安徽三联学院特色的就业指导工作体系。为迎接省级大赛,我院在各系(院)举办了各种形式的选拔赛,

并成功举办学院第二届就业指导课程教学大赛,就业指导工作呈现新局面。

安徽三联学院党委中心组学习党的十八大精神

11月21日,院党委中心组召开学习党的十八大精神会议。院领导和全体党委委员参加会议,省教育督导专员、党委书记桂宁东主持学习并讲话。

会议学习了胡锦涛总书记在十八大作的报告,学习了习近平总书记在中央政治局学习贯彻十八大精神会议上的讲话。

桂宁东指出,党的十八大是在我国进入全面建成小康社会决定性阶段召开的一次十分重要的大会。党的十八大是一次高举旗帜、凝聚力量的大会,是一次与时俱进、求真务实的大会,是一次继往开来、团结奋进的大会。认真学习宣传和全面贯彻党的十八大精神,是当前和今后一个时期首要政治任务,全院各级基层党组织和广大党员要按照中央、省委、省委教育工委和院党委的部署要求,迅速掀起学习宣传贯彻党的十八大精神的热潮;要紧密联系实际,切实将十八大

精神学习好、宣传好、贯彻好。

他强调,我院全体干部党员要充分认识十八大的重大意义,全面理解、深刻领会十八大思想理论和精神内涵,切实把思想和行动统一到大会决策部署上来,以高度的政治责任感做好十八大精神学习宣传贯彻工作。通过学习十八大报告的重大理论观点,努力提高广大干部党员政治素质和理论水平;要准确把握十八大报告提出的全面建成小康社会新目标和中国特色社会主义总体布局,以及关于教育的新要求,结合我院发展实际和民办高校发展实际,不断理清学院教育发展的思路,推动学院科学发展;要全面贯彻十八大报告提出的提高党建科学化水平和反腐倡廉的新要求,为学院发展提供坚强的政治保证。

近日党委会研究了学院学习宣传贯彻十八大精神的工作方案。

生物特征识别

——证明你是你

相信大家对生物特征识别并不陌生,好莱坞大片中对此也是给予了相当多帅气的镜头。瞳孔识别、声纹识别、人脸识别、指纹识别等高超技术令人不禁联系起 FBI、CIA 的画面。如今,这些技术已然来到我们身边。像华硕笔记本就自带“SmartLogon Manager”软件用于人脸识别开机验证,而摩托罗拉手机 ME860 更是自带指纹锁。那生物特征识别是怎么证明我们是自己呢?这里通过指纹识别简单向大家介绍。

人们的指纹在出生九个月后就定型并相伴一生。每个指纹含有 70~150 个特征点,约 120 年才会有两枚同样特征的指纹诞生,这足以将自己和他人区分开来。而识别的关键,就在于指纹特征的提取。现今技术定义了指纹的两类特征来进行指纹的验证:总体特征和局部特征。

总体特征指用人眼直接就可以观察到的特征,包括五类:

1. 纹形:分为三大类——环型(loop)、弓形(arch)、螺旋形(whorl)

环型(loop) 弓型(arch) 螺旋型(whorl)

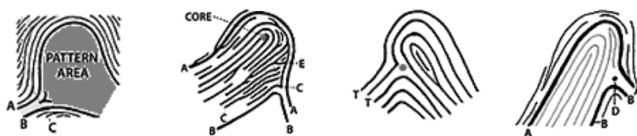

2. 模式区(Pattern Area):指纹上面包括了总体特征的区域

3. 核心点(Core Point):指纹纹路的渐进中心,它是指纹特征的参考点

4. 三角点(Delta):从核心点开始的第一个分叉

点或者断点、纹路会聚处、孤立点、折转处,或者指向这些奇异点

5. 纹数(Ridge Count):模式区内指纹纹路的数量

模式区(Pattern Area) 核心点(Core Point) 三角点(Delta) 纹数(Ridge Count)

局部特征是指指纹上的节点的特征,这些具有某种特征的节点称为特征点。指纹上的节点有四种不同特性:

1. 类型:特征点的分类有以下六种,其中分叉点和终结点最为典型。

A: 终结点(Ending):一条纹路在此终结。

B: 分叉点(Bifurcation):一条纹路在此分开成为两条或更多的纹路。

C: 分歧点(Ridge Divergence):两条平行的纹路在此分开。

D: 孤立点(Dot or Island):一条特别短的纹路,以至于成为一点。

E: 环点(Enclosure):一条纹路分开成为两条之后,立即又合并成为一条。

F: 短纹(Short Ridge):一端较短但不至于成为一点的纹路。

2. 方向(Orientation):节点可以朝着一定的方

向。

3.曲率(Curvature):纹路方向改变的速度。

4.位置(Position):特征点所处的位置。

通过以上的分类,我们就能够提取每个指纹独特的指纹特征,并储存到数据库作为指纹模版了。当我们要进行身份验证时,将再次提取指纹特征并

和指纹模版进行对比。一般说来,只要比对 13 个特征点重合,就可以认为是同一个指纹。

如今在我们的二代身份证也包含指纹信息存储区,只要你去办理身份证,你的指纹信息就会被提取并记录。

电脑的配角“缓存” ——非快的缓存

CPU 里面有缓存、硬盘里面有缓存、光驱里面有缓存……在电脑中的很多部件中,缓存常做为一个配角存在。缓存的知名度可以说远不如 CPU、硬盘、内存这些重要部件耀眼。但它在计算机中的地位却是举足轻重的。

缓存,它的名字里虽然有个“缓”,但并不真的代表它的速度很缓慢。相反而言,它甚至可以说是在电脑中,除了 CPU 之外,最“勤快”的部件了。因为它是数据频繁交换的地方。在电脑中 CPU 的速度极快,内存、硬盘的速度跟不上,光驱等外设部件就更加不用说了。出现这样的情况,怎么办?当然就是“勤快”的缓存来帮忙。

CPU 的缓存能提升 CPU 的性能,硬盘的缓存能提升硬盘的读写速度,刻录机中的缓存能让刻录更稳定。总的来说,缓存的三大作用,就是预读取、存储临时访问过的数据和对写入的数据进行暂时存放。这是不是听起来有点似类内存的工作啊?是的,不过缓存的工作地点总是先于内存之前的。

一般来说,缓存的容量都不是很大。相信会有不少人问为什么不把它做大点呢?第一,因为缓存对性能方面影响很大,所以,它就成为了厂商划分市场的好方式。举个例子,在 CPU 在主频、核心架

构、核心数量都相差无机的情况下,1M 的缓存的差别,两款不同的 CPU 就会带来百元以上价格差距。第二,把缓存加大,虽然对性能的提升有帮助,但在成本方面的投入却不是成正比的。当缓存大到一定程度时,提升的幅度就越小,而成本却是成倍的增加。这也是厂商不会贸然大幅度提升缓存的原因。除此之外,缓存越大,相应的也会让产品的功耗和发热量增加。

现在我们总结一下,计算机中的缓存其实是无所不在的。它有着快、小、贵三个特点。你都记得了吗?

SL2306 系统诞生背后的故事

2012年,对于研发中心科目二项目组来说是充满挑战的一年,随着《机动车驾驶证申领和使用规定》(公安部令第123号,以下简称123号令)及其行业标准实施在即,公司原先具有明显竞争优势的检测模式已经无法满足这一新的用户需求。形势紧迫,如何确保研发的新产品能够很好地满足用户新需求进而实现再一次华丽转身?如何才能用最短的时间实现一个又一个技术创新?又如何才能使新产品在激烈残酷的市场竞争中继续保持显著的竞争优势?研发中心科目二项目组面临着诸多问题的重重考验。

2012年,对于研发中心科目二项目组来说也是充满机遇的一年,时间并不允许科目二研发团队的半点犹豫,因为科目二系统的全面升级、改造已迫在眉睫、势在必行。在公司领导的大力支持下,科目二项目组顶着123号令即将实施的巨大压力,经过一个多月的加班加点,历经不计其数的试验、分析及论证,最终不负众望,2012年6月6日公司的新科目二产品终于诞生了,它就是“SL2306型机动车驾驶人场地驾驶技能(科目二)考试系统”。

SL2306系统的第一个试点城市是广州市公安局交警支队车辆管理所,在安装SL2306系统时,项目组人员发扬了“不怕苦、不怕难”的连续作战精神,每天连续工作到凌晨二三点,每一个忙碌辛苦的身影背后都有着为工作的付出与牺牲。为了尽早

完成SL2306系统的研制工作,项目组长王敬刚几乎常年出差在外,很少有时间留给家人。儿子中考在即,他都抽不出时间陪在孩子身边指导、鼓励,每每谈及这些事他眼中总会泛起丝丝歉意的泪光;文金宝,高烧40度却仍然坚持在工作第一线;叶国顺、刘洋因为高强度的工作而住院,但他们身上的刀口还没有完全康复却又踏上了工作的前沿……正是通过团队全体忘我的工作,SL2306系统于11月22日顺利通过广东省交管局考试专家组的评审,并吸引了全国各地区支队前去参观和学习。

在长沙市交警支队浏阳分考场安装2306系统时,当时湖南省交警总队对我们新研制出的产品并不抱有太大的信心,提出让我们的产品跟同类竞争

厂家来一次 PK。当时,我们项目组团队信心十足,完全没有被浏阳的“雨天”影响,在组长王敬刚的带领下,项目组人员直接担当工程安装人员角色,为抢抓工期他们冒雨施工作业,最终仅用三天时间就将该场地上 SL2306 系统安装完毕。湖南省交警总队、长沙市交警支队领导对我公司在如此恶劣的气候环境下仍能用这么短的时间完成本项目感到十分震惊,在完成现场测试后,对产品的稳定性更是给予了高度的肯定,并在现场的公众媒体面前赞誉“安徽三联是一个科技能力强、团队意识强、服务态度好的合作伙伴,是驾管行业永久的朋友,也是全国第一个实施新部令考试系统的公司”。目前,该考场已顺利完成项目验收工作。

SL2306 系统采用的 RTK-GPS 定位技术和惯性导航技术,实现了科学先进的检测方案,摆脱了对场地电子设备的依赖,节省了场地设备和基础建设投入,减少了安装和维护成本,产品体现了划时代的意义和强大的生命力,已在市场上规模推广使用。在国内市场方面,本项目产品投入市场后大大超出市场销售预期,给公司带来了巨大的经济效益和社会效益,广东、长沙、辽宁、山西等地用户使用后都给出了高度的认可和评价,奠定了 SL2306 系统在该行业的领导地位,本系统所使用的核心技术成为该行业唯一的首选技术路线,给竞争对手以漂亮的一击。在海外市场方面,2012 年 12 月 13 日与马来西亚成功驾

驶训练中心签订了 SL2306 系统正式推广马来西亚市场的备忘录。

SL2306 系统将会继续书写辉煌,而在它诞生的背后却有着研发中心这样一群艰苦奋斗、富有创新意识和团队协作精神、朴实可爱的人,是他们不想家吗?不是!是他们不想其乐融融,妻女围绕身旁吗?不是!他们方有明坐在电脑前为了调试一段程序奋战到凌晨,程泽良在烈日炎炎或顶风冒雪下连续施工调试数天,斯勇因长期劳累过度而不知不觉趴在考车的方向盘上就睡着了,陈婷娟、马晓峰夜以继日地完成了大量的文档编写工作和提供给项目组初期研发的大量原始数据,张飞翔、孙露默默无闻地设计一沓沓厚厚的机械图纸……大家为的是什么呢?大家是为了使我们的产品能够更快更好的推出、为了使我们的产品能够赢得用户更多的信任和推崇、为了使我们的产品能够更自信的走向全国乃至海外市场、为了使“三联”的品牌常青于日新月异的行业竞争之中!

他们背后的辛劳与付出依然历历在目,让我们研发中心的每一位同仁为之敬佩,正是因为拥有这样能征善战的团队,我们才能即时铸造出顺应市场需求的竞争利器,在以后的日子里,我们研发中心全体同仁将会将继续保持、学习并发扬科目二项目组“艰苦奋斗、不畏挑战、精诚协作、勇攀技术高峰”的精神风貌,为公司的宏伟蓝图添墨加彩!

一个办公室新人的职业感悟

金秋十月,我在经历了求职道路上的几番小波折后,成为了安徽三联学院综合办公室的一名工作人员。

从入职之初到现在,虽然只有短短的两个月时间,却已经让我对办公室的工作性质有了以下的一些感悟和认识。

首先,综合办公室是学院负责内部上传下达横向联系的部门。办公室所处的特殊地位和所属的工作性质,决定着办公室的实质就是学院的服务中枢,办公室工作的核心就是服务。加之办公室的工作虽说都算不上什么大事,但却都更偏重于细节,不能有丝毫马虎。因此,作为办公室的一名工作人员,最需要的就是耐心和细心。

第二,顾名思义综合办公室是综合部门,工作纷繁复杂。要提高办事水平与办事效率,必须抓住关键,把握重点,才能取得事半功倍的效果。在日常工作中,坚持从工作的大局考虑每一个细小问题,才能把每一件事情都考虑得更周全,安排得更细致,处理得更完善,才能办事效率明显提高。

第三,综合办公室的工作纷繁复杂,更需要有过硬的基本工作技能作为基础才能够换来好的服务质量与高的服务效率。具体而言,综合办公室的工作特别需要练好五种基本工作技能:

一是头脑灵活,会出好点子;二是笔头功夫好,要有较强的文字能力;三是要有好口才,能反映问题传达指示不走样,组织沟通顺畅;四是洞察力强,能从各种意见中找出相同点、结合点和沟通点;五

是会创新,针对工作中的一些新问题、新情况,能够想出新的思路。

总的来说,综合办公室的工作并不像看上去的那么简单,每一件小事中都蕴含着大的智慧。其实这正反映了一个道理:态度决定一切,有了对的态度,事情就越做越简单,人就越做越单纯、越做越专业。复杂的事情,认真的去做,就会越做越简单,简单的事情心无旁骛地做,简单中就出效果和效益了。

态度决定一切。一个人的成功与否,取决于他的人生态度。凡是成功者,始终用最积极的思考、最乐观的精神来支配和控制自己的人生。最基本的态度就是要认真、要用心。

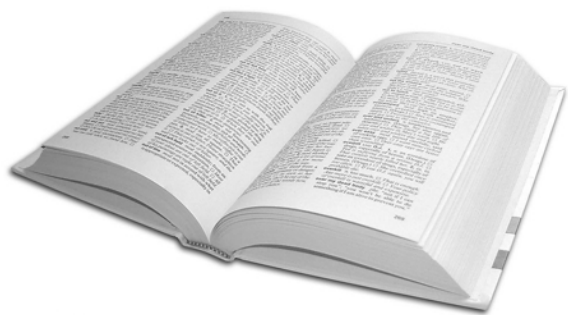

用心工作是一种态度,也是一种方法。用心工作,就要将“认真”放在第一位。因为认真工作是提升自己能力的最佳方法。我们要把认真当成一种工作习惯,贯彻到我们以后的工作中去。我们可以把工作当作一个学习机会,从中学习处理业务,学习人际交往。这样不但可以获得很多知识,还可以为以后的工作打下良好的基础。

“不积跬步,无以致千里;不积小流,无以成江海。”能来到安徽三联学院工作,是我的一份幸运,也是一个锻炼的平台。在将来的工作中,我也将更加正视工作中遇到的问题,不轻视小事,更不畏惧困难。从身边的点滴小事做起,认真扎实做好工作,争取为学院也为自己创造更大的价值。

书缘

光阴荏苒,转眼间我已三十出头,步入了而立之年。回首昨日,虽然人生的岁月夹杂了几多苦涩和艰辛,但渐淡去的记忆却始终抹不去我与书结下的不解之缘。

幼时家贫,但并未因此而削弱我对于书的热爱和痴迷。我爱读书,也爱买书,尤其是文学书籍。记得我上小学三年级时,县新华书店到学校摆地摊卖书,地摊就设在校门前那两棵高大的银杏树下。下课的铃声刚一响,我就随着拥挤的人群涌向了树下的书摊。挤在人群中的我被书摊上摆放的一本窄窄的绿颜色的小书——《唐宋词一百首》深深地吸引了。我挨着同学的膝盖蹲了下来,迫不及待地小心翻看起来。且不说这本小书装帧素雅,选词广泛,单是书中那精美的插图就足以让人着迷了。我印象最深的,是李白的《忆秦娥》词后那帧意会了词意而画就的、透着淡淡忧愁的插图:漠漠平林之中,夕阳西下,宿鸟归飞。画上楼阁之中,有一着长衫端坐之人,我猜想这就是一千多年前的诗人李白。我翻看后就舍不得放下了。但囊中羞涩,实在拿不出购书之钱。我思前想后,为今后也能像李白那样写出令人叹服的诗篇,我第一次大着胆子,急匆匆地跑回家中从父亲的内衣口袋里偷走了5角买书的钱。书虽然买下了,但此后的我却忐忑了很长一段时

间。

随着年龄的增长,我对于书的渴望也与日俱增。每次家里给我每周用的生活费,都会被我刻意省出来买书。学习用的英语周报,亦或是徐慕容、汪国真的诗集,见到这些书,我就会茶饭不思躲在自己的小角落狼吞虎咽地读着。如果是放假在家里,也每每是爸妈催着说,你要多出去玩玩,光在家里看书,眼睛近视了不行。

如今工作的日子里,与书却没有原来的那种如饥似渴,但是始终我都会在床头放一本书,每至睡觉之际,总会翻起几页才肯睡去;还有上下班地铁里的两个小时,竟然变成我最迫不及待等候的时间,每次一踏上地铁,选定好位子,站定,总会拿出我从图书馆借来的书读起来,每次竟然不知不觉就到了站,摒去了地铁里的焦躁与喧嚣,收获了书中的宁静和智慧。何乐而不为?

买书、读书、用书,怕是我这一生注定要朝也相随、暮也相从的了。书中自有黄金屋,腹有诗书气自华。我从不奢望以读书之道获万贯家财,只是期望在温馨的灯光下、朗朗的月夜里,借一段时光,寻一方宁静,捧一卷闲书,细细地咀嚼古往今来的人生,慢慢沉淀那书中自有的淡淡香味。

美丽的人生源于选择了积极的思维方式

在这个世界上,通向成功的道路何止千万条,但你要记住:所有的道路,不是别人给的,而是你自己选择的结果。所以,你有什么样的选择,也就有了什么样的人生。在这个精彩而复杂的世界里,无论是成功者还是失败者,他们之间最重要的区别就是

对人生之路选择的差别。选择就是给自己寻找前进的方向,选择就是为自己的人生把握方向。只有选择,人生才能演奏出多姿多彩的壮丽篇章。

“心之官则思,思则得也,不思则不得也。”成功无定律,幸运从来不主动光顾你,要靠自己去正确

选择。人的一生选择很重要,不同的选择带来不同的结果。在选择的过程中,思维方式尤为重要。

偶尔读到美国这一故事,一对双胞胎兄弟,不约而同地在前后两天之内上报。哥哥上报是因为他是参议员,对国家非常有贡献。弟弟第二天也上报了,因为杀人而被判处无期徒刑。由于兄弟两人容貌相似,大家都以为登错照片了。有一个记者很好奇,去访问了哥哥,问道:“是什么动力促使你今天的成功?”哥哥说,“我的父亲好赌,每天回来还常常醉酒打人。”然后他叹了一口气,“在这种环境下长大,我能怎么办?”下一句没说出来的话就是:我只有靠自己努力奋斗了!弟弟也被访问了,他也无辜的说,“我的父亲好赌,每天回来还常常醉酒打人,”他也叹了口气,“在这种情形下长大,我能有什么选择?”下一句没说出来的话就是:这不是我的错,谁叫我有这样的父亲呢!

这则故事告诉我们,选择积极的思维方式还是选择消极的思维方式,会决定你是成功者还是失败者。成功的人总是找方法,失败的人总是找理由。面对同样的家庭,同样的父亲,同样的境遇,哥哥选择了积极的思维方式,靠自己的努力奋斗,不断地找方法,所以他成功了;而弟弟呢,他选择了消极的思维方式,把自己的境遇归咎于父亲,归咎于环境,不断地为自己找理由,找借口,所以他失败了。生活中,这样的哥哥弟弟随处可见,这样的抱着不同思维方式的哥哥弟弟也大有人在。真希望有更多的人学会积极地思维方式,更希望我们的下一代不再事

事找理由、找借口,而是积极地找方法解决问题。为此,我们要选择积极的思维方式,消极的思维方式。积极的思维方式就是总能从积极的、有利的一面去看待问题,消极的思维方式就是总是从消极的、不利的一面看问题较多。心理学家研究发现:负性生活事件和思维方式、消极应对方式均与抑郁呈显著正相关,自动负性思维可直接导致消极应对方式和抑郁。思维倾向一定程度上是由平时的思维习惯决定的,在生活、学习和工作中经常心存感恩之心,从积极的一面看问题,这样可以形成积极的思维倾向了。

有一位古希腊哲人,家居狭小,却有众多朋友时时造访,别人看着都烦,就问他不烦吗?回答说:朋友朝夕相处,可以随时请教问题,有什么不好呢?后来,朋友们不来了,斯人依然快乐自在,邻人更不理解了,问其缘由,回答说:朋友们不来了,家里安静了,正好可以独自看书思考,有什么不快乐呢?哲人聪明的选择了正性思维,使自己的活得快乐幸福,你也一样可以做到。美国成功学学者拿破仑·希尔关于心态的意义说过这样一段话:“人与人之间只有很小的差异,但是这种很小的差异却造成了巨大的差异!很小的差异就是所具备的心态是积极的还是消极的,巨大的差异就是成功和失败。”从现在开始如果你愿意,相信你可以成功选择积极心态,改变你的人生。

·诗歌鉴赏·

孤寂的人,有话放在心中,不愿吐露;
坦诚的人,在沉默中做出最大的感动。

.....

有故事的人,用音乐之魂让这世界安静。

.....

第一旋律的跳起,心,已舞动。

丝丝细风是人群的气息,

不同的乐器撞击出内心的情愫。

是独坐家中沉浸泡沫剧的悲欢离合,

是走向大街深陷那摩天大楼和川流的车水马龙。

是眼前满山遍野一片花海的阵阵色彩,

是远去那古老又难忘的故事。

温馨的角落无法在喧闹中找到,
心灵的漂流随着天蓝,随着水清与叶黄。

对着墙壁还是对着镜子,能看到真正的自己吗?

伸手握住的可以是自己的影子吗?

微笑起来,是给脸庞一个枷锁吗?

笑容褪去,曾经的小世界还能重现吗?

想说什么,又说了什么,却发现已说了很多。

旋律百转而回,

耳边响起的那是什么?

用心听出,

那,是最后一支永恒的华尔兹。

那最后的华尔兹

Growing in the Golden Years

How time flies with spring going, winter coming, and another spring coming! 2012 has come to its end. At this moment of the Old Year ringing out and the New Year ringing in, we look back to the past year and ponder over what we have gained or lost and what we have been aware or unaware of. Nevertheless, we are growing and progressing along the correct path as time turns into the golden years...

As a window of propaganda for Sanlian Group and a platform of internal communication, *Sanlian News* in 2012 witnessed this group's steady development and gratifying achievements; and with the journal we staff got the chance to listen to the inner voices of more and more employees and to share their stories of ups and downs.

As staff we are happy to have such a home. Here, we can feel the vigor and vitality of the enterprise and

witness the development of the enterprise; we can exchange and share our experiences, provide valuable business knowledge, and understand life. And still here, we get the chance to know the development of ourselves and the achievements of this group, to contact the outside world and to position ourselves in society. In the golden year, *Sanlian News* is our friend and also our vantage point.

“GUANGCAI PROGRAM” IN SHITAI

On December 11, 2012, “Guangcai Program in Shitai” was initiated jointly by the United Front Work Department (UFWD) of Anhui Province and “Guangcai Program” Association of Anhui Province. Ms. Shen Suli, Director of UFWD and the Chairperson of “Guangcai Program” Association of Anhui Province, attended and spoke at the meeting. Mr. Li Weihua, Vice Chairman of CPPCC of Anhui Province and Chairman of the Provincial Federation of Industry and Commerce, Chen Qiang, Party Secretary of Chizhou City, and Jin Huiqing, Vice Chairman of the Chinese Chamber of Commerce and President of Sanlian University, attended the activity.

At the meeting, Ms. Shen pointed out that the program was to carry out the spirit of the 18th Congress of CCP and to implement the poverty alleviation campaign. With the program, the poverty alleviation work must be on a higher level and the well-being of the area must be pro-

moted. She appealed to the private entrepreneurs to help alleviate the poverty by investing in the area. At the same time, said the director, their developing space would be extended. Only projects actually needed in the area are permitted to start, while business and establishments should pay attention to their scientific development and transformation and upgrading.

There were more than 170 people from relevant units and government departments attending the meeting. During the meeting some contracts were signed and the donation and contribution totaled to 82.6 million.

Also, Yu Wansheng, the president of Sanlian Education Group, and Xu Qixiang, the director of Shitai Vocational Education Center, signed an education cooperation framework agreement.

GOVERNMENT OFFICIALS VISITED SANLIAN GROUP

On October 31, 2012, officials from relevant government departments visited Sanlian University. Han Yonglong from the Provincial United Front Work Department (UFWD), who is in charge of industry and commerce in UFWD, Shi Daoliang, Deputy County Chief of Shitai County, and other officials from relevant departments of Shitai County visited the first and the second campuses of Sanlian University. Then an exchange meeting was held in the meeting room at the second campus. Top leaders including Yu Wansheng, Zhu Rong, Li Jieju, Wang Ruiyou and Chen Jiankang attended the meeting.

At the meeting, Mr. Han Youlong first gave a brief introduction to both parties' chief leaders. And then, he said that the purpose of the meeting was to strength the cooperation between Sanlian Group and Shitai County.

Mr. Shi Daoliang introduced that Shitai County is famous for its ecological environment, winning the title of "Model County of Recreational Agriculture and Rural Tourism in Anhui Province". It is also one of the key national eco-

logical function areas with beautiful natural scenery. As a result, green industry is the county's pillar economic resource. The local government is eager to invite investment to develop its ecological tourism, its non-pollution agricultural and sideline products. And with the development of green industry, the economy of the county could be promoted and the living standard of local people could be improved.

Authorized by Mr. Jin Huiqing, the president of Sanlian Group, Mr. Yu Wansheng, the vice-president of the Group, extended warm welcome to the visitors and introduced the development of Sanlian Group from three aspects: producing, education and research. He put emphasis on the education of tourism, nursing, vehicle maintenance and regimen.

The two parties also discussed on tourism, nursing for the aged, personnel training and vocational education, and both have the desire to cooperate with each other.

APPROVED: ROAD DRIVE SKILL (SUBJECT III) INTELLIGENT TESTING SYSTEM

“Road Drive Skill (Subject III) Intelligent Testing System” was approved by the Department of Science and Technology of Anhui Province. The system was developed by Sanlian Group and was on the list of Anhui Provincial Science and Technology Programs of 2012.

The test system combines computer science, automatic control and satellite positioning with digital communication, aiming at developing the evaluation techniques for driving test subjects. (These subjects include 13 driving test process, such as preparation for getting on the vehicle, start-up, straight driving, changing lane, passing junction, passing zebra crossing, passing school,

passing bus stop, meeting, overtaking, pulling over, turning round, driving at night.) By the testing system, differential GPS positioning can be realized; both the speed of the testing vehicle and its engine speed can be obtained, and the working condition of vehicle lamps, gears, vehicle doors, safety belts, hand brake and brake pedal can be detected.

The testing system is about to play a positive role in strengthening drivers’ safety awareness and resolving driving test problems in line with Order 123 issued by Ministry of Public Security. Meanwhile the system can ensure justice and equity in driving tests.

SANLIAN TRAFFIC COMPANY AND PUSAT LATIHAN MEMANDU BERJAYA BERHAD: MEMORANDUM OF COOPERATION

On December 12, 2012, representatives from Pusat Latihan Meandu Berjaya Berhad visited Sanlian Traffic Company and studied “the Testing System for SL2306 Type Vehicle Drivers Field Driving Skills (Subject II)”. The group was accompanied by Wang Jue, the director of Sanlian Traffic Company, Wang Jiangbo, the deputy general director, Pan Tao, the deputy director, and other members of the research team of the system.

The Testing System was demonstrated in real situation to the visitors. The system possesses a variety of advantages, such as requiring less e-

quipment and less land, maintenance free, and accurate evaluation. Knowing these advantages of the system, leaders from Pusat Latihan Meandu Berjaya Berhad gave high praise to the system.

After exchanging some views and ideas, Mr. Wang Jue and Mr. Zhang Guoji, on behalf of the two parties, signed a memorandum of cooperation.

The successful cooperation is the first step

for the Testing System to march towards the international market, and lays a good foundation for overseas market.

The Second Scientific Research Working Conference was Held in Anhui Sanlian University

The second Scientific Research Working Conference of Anhui Sanlian University was held in the Lecture Hall on November 26. Leaders from

Anhui Sanlian University, including Gui Ningdong, Yi Youmin, Qin Yongyuan, Zhao Yanzhu, Zhang Shulin, Zhang Ke'ren and Wang Ruiyou attended

the conference and were seated on the platform. Leaders at different levels from all departments and offices in Sanlian University attended the conference, which was hosted by Jiang Fagen, Assistant of the President of Anhui Sanlian University.

Prof. Yi Youmin, Executive Vice President of Sanlian University, delivered an important report entitled “Strengthening Awareness, Innovating Mechanism, Promoting Scientific Research in Anhui Sanlian University”. In his report, Prof. Yi Youmin summarized the results of scientific research in Anhui Sanlian University, analyzed the present situation and challenges in scientific research, and put forward clear goals for the tasks of scientific research of Anhui Sanlian University in the future.

Prof. Yi Youmin asked all the participants to seek unity in thinking, change ideas, and fully understand the importance and urgency of strengthening scientific research. He said that it was essential for universities and colleges to do scientific research in order to realize sustainable development, cultivate application-oriented talents and strengthen teachers’ training. At the present time, there were some problems in the process of swift development of scientific research. All the faculty members needed to increase their awareness and actively take part in the scientific research.

Prof. Yi Youmin pointed out that from now on the focuses of scientific research in Sanlian were as follows: changing ideas and strengthening

understanding; selecting academic directions on the basis of dominant specialties; building academic teams and uniting scientific research power; forming scientific research platform to promote academic communication; strengthening the cooperation among manufacturing, education and scientific research to speed up the transformation of scientific research achievements; innovating evaluating mechanism, creating a sound environment, and grasping the opportunity to carry out scientific research and to build a first class application-oriented university.

At the conference, Vice President Zhang Ke’ren read out “The Decision about Rewarding ‘Advanced Departments’ and ‘Advanced Individuals’ of Scientific Research for 2009-2011”. After that, certificates of honor were awarded to the winners. 6 individuals and 4 departments won awards at the conference.

On behalf of all the winners, Wang Hui from Traffic Engineering School made a speech at the conference. She introduced her experience of research. Vice Director Wang Genjie from Scientific Department gave a report on the requirements of scientific research findings in professional titles evaluation.

After this conference, faculty members would discuss the related topics on the basis of their own departments.

nity for Sanlian to learn and cooperate. He hoped that this activity would build a bridge of cooperation between Sanlian University and the enterprises of new Hui Merchants.

Mr. Xu Yixin, Director of Operations of Anhui Business Magazine gave the latest issues of Anhui Business Magazines as gifts to this University.

“What’s the spirit of Hui Merchants? What characteristics do you need to have in order to become a Hui Merchant? How will you be unregretful for your youth?” Two entrepreneurs – Wu Jianguo, President of Anhui Ruihuang Optical and Electrical Scientific and Technological Co.Ltd, and Zhou Dianjing, one of the ten candidates of Hui Merchants in 2012, President of Beile Education Group, told the students about these issues one by one.

President Wu Jianguo also told the students his experience of starting a business, and introduced the latest development of LED industry. In his speech, he pointed out repeatedly that it was because of his insistence that he was able to make progress and finally became so successful in the LED industry. Ms. Zhou Dianjing, President of Beile Education Group told the students her understanding of youth and love. Their excellent stories of starting a business and vivid speeches deeply excited the audience and won repeated applause.

At the end of the speeches, Mr. Xu Yixin

made a summary of this Tour Speech, which was followed by discussion between the audience and the two entrepreneurs in a light atmosphere.

Hui Merchants Tour Speech at Universities and Colleges is one of the series activities of The Second Hui Merchants Oscar with the goal of providing opportunities for students to learn from Hui Merchants and communicate with entrepreneurs. It aims at helping students with their professional planning and providing advice on starting a business. It plays a significant role in expanding the influence of Hui Merchants and sharing their opinions and spirit with the students.

It was reported that the first stop of this Speech Tour was Anhui University. At the end of activities in Anhui Sanlian University, they would move on to University of Science and Technology of China, Hefei University of Technology, Anhui Finance and Trade Vocational College and other universities and colleges, when dozens of excellent Hui Merchants would go on to give speeches, sharing with the students Hui Merchants Culture and their own stories of being successful in business.

Anhui Sanlian University Won Awards at the Second Teaching Competition of Employment Course in Anhui Province

The final competition and awarding ceremony of the Second Teaching Competition of Employment Guidance in Anhui Province was formally held in Anhui Institute of Administration and Management on November 11. Anhui Sanlian University won “The Best Organization Award”; Guo Yufang from Department of Economics, Law and Politics of Anhui Sanlian University won the third award; Hu Baoqin from the Japanese Department and Zhou Wenqin from the Department of Nursing won excellence awards respectively.

This competition was sponsored by Department of Education of Anhui Province, co-organized by University Students’ Affairs Office of Department of Education of Anhui Province, College Graduates Employment Guidance Center, Production and Teaching Cooperative Committee of Anhui Provincial Vocational and Adult Education

Society, the Publishing House of Hefei University of Technology and the Publishing House of Anhui University.

In the past few years, Anhui Sanlian University kept relatively high employment rate and employment quality. Meanwhile, it strived to explore new channels of employment guidance, and combine employment guidance with the whole process of graduation and employment. An employment guidance system with Sanlian characteristics has formed in this University. Prior to this competition, each department or school in Sanlian University had held various competitions, together with The Second Teaching Competition of Employment Guidance, which greatly promoted the employment guidance in Anhui Sanlian University.

Biological Feature Recognition

——You Are Yourself

Biometrics identification is no longer strange to people now; it has been shown in many Hollywood blockbusters. Those marvelous technologies such as pupil recognition, voiceprint recognition, face recognition and fingerprint recognition in the films remind people of FBI or CIA. Nowadays, these technologies are around us. For example, the ASUS laptop carries its own software “SmartLogon Manager” used for face recognition on validation, and a mobile phone of MOTOROLA ME860 has even been installed with a fingerprint lock. How can biometrics identification technology recognize people as themselves instead of others? Here is a brief introduction to fingerprint recognition.

Nine months after birth, people’s fingerprints will be finalized and cannot be changed all their life. There are 70-150 characteristic points in each fingerprint, and another fingerprint with the same characteristics will appear in 120 years, which is

long enough to distinguish one from the others. The key to the recognition is the extraction of fingerprint features which are defined into two categories, general features and local features, to test and verify fingerprints by modern technologies.

General features refer to the characteristics which can be observed directly by people’s eyes. They include five subcategories:

1. Grain shape: it is divided into three types —— loop, arch, whorl.

loop

arch

whorl

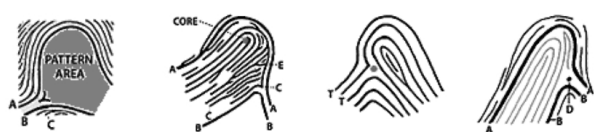

2. Pattern Area: the area containing the general features on fingerprints.

3. Core Point: the asymptote centroid of fin-

gerprint pattern. It is the reference point of fingerprint features.

4. Delta: from the core point, the first bifurcation or breakpoint, the point where lines converge, dot or island, turning point, or the area pointing to these singular points

5. Ridge Count: the number of lines of a fingerprint within the pattern area

Pattern Area Core Point Delta Ridge Count

Local features refer to the characteristics of joints in fingerprints. The joints with certain features are called characteristic points. Joints in fingerprints have four different characteristics:

1. Types: characteristic points have the following six types, in which Bifurcation and Ending are the most typical ones.

A: Ending: a line ends here.

B: Bifurcation: a line is separated into two or more lines here.

C: Ridge Divergence: two parallel lines part here.

D: Dot or Island: a very short line which can even be regarded as a point.

E: Enclosure: a line is separated into two or more lines, and then these separated lines merge into one immediately.

F: Short Ridge: a line with a short end but cannot be called a point.

2. Orientation: the joints may point to a certain direction.

3. Curvature: the rate at which the lines change their direction.

4. Position: location of the characteristic points.

Based on the above classification, distinctive fingerprint features can be extracted from each fingerprint and then stored into database as fingerprint template. When people need authentication, their fingerprint features will be extracted again to be compared with the fingerprint template. Generally speaking, as long as 13 fingerprint features coincide, it can be included that the two fingerprints come from the same person.

There is fingerprint information storage area in the second generation ID card and now if you go to apply for an ID card, your fingerprint information will be extracted and stored in it.

The Story Behind the SL2306 System

For the second subject group of the R&D center, 2012 was a year full of challenges. The original detecting pattern with obvious competitive advantage would no longer meet the new requirements when *Regulations on Application and Use of Motor Vehicle Driving License (No. 123 of the Ministry of Public Security Order*, hereinafter referred to as *Order 123*) and new industry standards were to be enacted. How to ensure the research and development of new products to satisfy customers well and win again a gorgeous turn in this urgent situation? How to realize one technological innovation after another within the shortest possible time? How to keep the obvious competitive advantage of new products in such brutal market competition? The second subject group of the R&D center was facing many problems and tests.

For the second subject group of the R&D center, 2012 was also a year full of opportunities. Because of the limited time for the total upgrade and reconstruction, the second subject group went ahead firmly and diligently, working overtime for more than one month with innumerable experiments, analysis and argument under the upcoming of the Order 123, and finally on June 6th, 2012, the Testing System for SL2306 Type Vehicle Drivers' Field Driving Skills (Subject II) was successfully developed under the support and leadership of the company.

The first pilot unit for the SL2306 system was the Traffic Management Office of Traffic Police Branch, Guangzhou Public Security Bureau. When installing the SL2306 system, all group members worked continuously until two or three

o'clock in the morning every day and with this devotion and sacrifice, they carried forward the spirit of "working hard and never giving up". To finish the development of the work as soon as possible, Wang Jinggang, the project leader, was always on business trip without family time. He spent no time in directing and encouraging his son even when the boy was preparing for entrance exam to senior high schools, and each time he talked about it, this tough man would feel great distress and was suffused with tears. Wen Jinbao kept working on the front line even if he had a fever of 40°C. Ye Guoshun and Liu Yang were in hospital because of the hard work, but they returned to the front line soon without complete recover. Thanks to the devotion of the whole group, the SL2306 system successfully passed the review of the expert panel of Traffic Management Bureau of Guangdong Province on November 22, and attracted detachments all over the country to visit

and study.

When the SL2306 system was installed in Liuyang exam field in Changsha Traffic Police Detachment, the Traffic Police Headquarters of Hunan Provincial Public Security Department had no much confidence in this new product, and suggested that this group compete with others. But all the members of this group were full of confidence at that time. To save time they worked in the rain as installation personnel, led by the project leader Wang Jinggang, and finally within only three days, they excellently finished the installation of the system in the exam field. The leaders of the Traffic Police Headquarters of Hunan Provincial Public Security Department and Changsha Traffic Police Detachment were so surprised to find that this group could finish the project within so short period of time in such a harsh climate. After spot testing, they spoke of the new products' stability in terms of praise and before the present public media they commended that "Anhui Sanlian is an ideal cooperator with strong ability of science and technology, strong sense of teamwork, and good service attitude. Sanlian is a forever friend of driving administration and also the first company that put the new Order and the new test system into effect". Now, the exam field has finished the project acceptance.

The SL2306 system, now being popularized in the market, adopts RTK-GPS AVL and inertial navigation technology, achieves the advanced detection scheme, gets rid of the dependence on electronic equipment in the exam field, saves the input on facilities and basic construction, reduces the cost of installation and maintenance and embodies the epoch-making significance and strong vitality. In the domestic market, it increased the volume of sales well above the expectation and brought this company enormous economic returns and social benefits. It also gained high evaluation and recognition from customers in Guangdong, Changsha, Liaoning and Shanxi, etc., which estab-

lished the SL2306 system's leading status in this industry. Being the only preferred technical route in this field, the central technology used by this system gave rivals a forceful stroke. In market overseas, on December 13, 2012, we assigned the memorandum of popularizing SL2306 system in Malaysia market with the Success Driving Training Center.

The SL2306 system will continue to create a brilliant future, and behind it there were the R&D center's painstaking efforts, innovation consciousness and spirit of teamwork. Didn't these simple and lovely people miss their family? Didn't they want to stay happily with their relatives? No! Fang Youming stayed up all night to debug a program before the computer; Chen Zeliang kept installing and debugging for a few days in shining days or cold wind and snow; Si Yong was so tired that he unwittingly fell asleep leaning on the steering wheel; day and night Chen Tingjuan and Ma Xiaofeng went on editing files and providing plenty of original datum for early-stage research; Zhang feixiang and Sunlu designed in obscurity piles of mechanical drawings. Why did they do that? They did that for the sake of the new product, for a quicker and better launching, for more customers' trust and praise, for more self-confidence in the whole country and overseas markets, and for the evergreen brand of "Sanlian" in the industrial competition.

Each member of R&D center admired for their hard work and effort that dwells in their memory. It is with this efficient team that this company can cast its sharp weapons for the competition complied with the demands of the market. In the following days, all members in the R&D center will continue to learn, develop and keep the second subject group's spirit —painstaking effort, aggression, sincere collaboration and scaling new heights, and get more achievements for the company's grand blueprint.
